The proposed **Red Line/Blue Line Connector** is a project of the Massachusetts Executive Office of Transportation (EOT). It would link the only two lines that do not currently intersect within the MBTA's rapid transit system. The project would extend the Blue Line approximately 1,500 feet beneath Cambridge Street to make a connection with Charles/MGH Station on the Red Line. At the meeting, EOT will present an overview of the project and answer questions from the public.

Directions and project information are available at www.mass.gov/eot/redblue

To request access or language accommodations, please call Regan Checchio at 617-357-5772 at least ten days in advance.
