

Boston EMS Basic EMT Course

"The Boston EMS Basic EMT Course was absolutely terrific. I felt extremely prepared for the State examination. The Boston EMS instructors were engaging, motivating and made the entire experience fun. I am so glad I took this course."
-Jen, Class of Winter '10

Through our accredited Training Academy, Boston EMS offers a comprehensive, low cost Basic EMT Course led by the same team of trainers who prepare Boston EMS EMTs and Paramedics to respond to any emergency. Our 150 hour Basic EMT Course offers exceptional classroom training, emergency room observation at the Boston Medical Center, and the opportunity to observe Boston EMS Operations during an ambulance ride-along.

Through hands-on training and classroom work, students will learn to evaluate and treat various medical emergencies including:

- cardiac arrest and stroke
- fractured bones
- obstructed airway
- severe bleeding
- emergency childbirth

After successfully completing the Basic EMT Course, students receive a Boston EMS Certificate and are eligible for the State certification examination. While participating in the Basic EMT Course does not guarantee employment at Boston EMS, students will leave the course well prepared to pass the State exam and seek employment as an EMT.

A Career You Can Believe In

Do you want to make a difference? Become an EMT. When illness or injury strikes, patients count on EMTs to respond with timely, high-quality care. EMTs are in demand, not only in the Boston Metro area, but throughout the country. As an EMT, opportunities for growth and advancement are endless. Today, EMTs are not only at the forefront of emergency medicine, but they play a critical role in emergency preparedness as well as community outreach and education. As an EMT, every day is different and every day is a challenge. Become an EMT and build a career you can believe in.

About Boston EMS

The men and women of Boston EMS serve the City of Boston with pride, skill and compassion, 24 hours a day, 365 days a year.

- Boston EMS, a bureau of the Boston Public Health Commission, is the City of Boston's provider of emergency medical services.
- As one of the busiest services in the country, Boston EMS responds to more than 100,000 emergencies per year.
- As a result of our rigorous training programs and state-of-the-art facilities, Boston EMS boasts a team of highly skilled and specially trained EMTs and Paramedics.
- Our members are at the forefront of every medical emergency, large and small, making life-and-death decisions that impact the lives of thousands every year.
- Boston EMS is a recognized leader in the field of pre-hospital emergency medicine and leverages the latest advances in both medicine and technology to deliver unparalleled service.

Mission Statement: Boston EMS, the provider of emergency medical services for the City of Boston, is committed to compassionately delivering excellent pre-hospital care and to protecting the safety and health of the public.
