

SITE PLAN REQUIREMENTS
Public Works Department

To satisfy the site plan review requirements of the Public Works Department, three sets of site plans conforming to the following criteria should be submitted:

- Approved and signed by the Boston Water & Sewer Commission.
- Provides contour lines and/or spot-grade elevations.
- Provides the finished-floor elevation (FFE) of the proposed building(s).
- Generally does not propose to discharge an unreasonable volume of stormwater from private property onto any public roadway.
