AFTER-SCHOOL

Parents United for Child Care

After-School Programs

Program: A primary goal of the Partnership is to increase the number of children in Boston participating in out-of-school time programming. While there are thousands of children who are enrolled in and benefiting from high-quality out-of-school time programs in Boston, there are almost as many who would like to participate but are not enrolled. The Partnership recognizes that families need a choice of programming, in order to allow them to meet specific developmental, economic, and cultural needs. In fact, Boston's system of out-of-school time service delivery is unique: a wide range of programs exists to meet the needs of children and families. Although this diversity provides an infrastructure for families and communities to identify and meet their own needs, it also poses challenges to expansion and sustainability. The Partnership created CASI to support the growth and resiliency of small, community-based providers.

Funds: Total funds available: \$410,000.
Average grant size: Up to \$40,000 over the two-year period.

Deadline: August 16, 2002.

Eligible: An after-school program applying for a CASI Grant must meet the following eligibility requirements:

- ✓ The program must serve fewer than 52 children and/or youth.
- ✓ The program must have its own site director and operational budget, so that it is able to participate in CASI's individual and collaborative technical assistance for building organizational capacity and financial sustainability.
- ✓ The program must operate in the City of Boston and must be fully operational by January 2002.
- ✓ Programs subject to OCCS regulation must provide proof of licensing or proof that they are in the process of pursuing a license. OCCS exempt programs must provide proof of exemption.
- ✓ Licensed after-school programs must provide regularly scheduled, structured programming at least three times per week for regularly enrolled children and youth.
- ✓ Affordable slots supported by a CASI Grant must be for Boston children ages 5-18 years.
- ✓ An applicant must be incorporated as a 501(C) 3 non-profit organization according to the Massachusetts General Laws.
- ✓ Programs may request funding for school-year or full-year programming (not summer programming only).
- ✓ Programs must outline the ways in which CASI Grant will be used to expand the number of children served in their program. The number of affordable slots must be maintained or increased over the two-year funding cycle.

DOMESTIC VIOLENCE

Department of Health and Human Services /Centers for Disease Control and Prevention Cooperative Agreement for the Domestic Violence Prevention Enhancement and Leadership Through Alliances (DELTA) Program

Program: The purpose of the program is to stimulate the development and implementation of activities to prevent domestic violence that can be integrated into coordinated community responses (CCRs) or similar community-based collaborations at the state and local level. Specifically, the DELTA program seeks to add a significant prevention focus to the existing CCR model by funding state domestic violence coalitions who will act as intermediary organizations in providing prevention-focused technical assistance, training, and funding to local communities. For the purposes of this announcement, activities to prevent domestic violence are defined as population-based and/or environmental/system level services, policies and actions that prevent domestic violence from initially occurring and require a community level process to identify and implement.

Funds: Total funds available: \$2.6 million.

Average grant size: \$400,000.

Deadline: August 30, 2002.

Eligible: Assistance will be provided only to state domestic violence coalitions (as designated by the Administration on Children and Families of the U.S. Department of Health and Human Services) that qualify as private nonprofit organizations.

WOMEN

Department of Labor/ Office of the Secretary Women's Bureau, Women in Apprenticeship and Nontraditional Occupations Act (WANTO)

Program: This grant program is designed to assist employers and labor unions (E/LU) in the placement and retention of women in specific sections of the workforce. It is envisioned that the program will promote increased participation by women in apprenticeship and

nontraditional occupations (A/NTO). Therefore, WANTO grant funds are distributed to community- based organizations (CBO), which provide technical assistance to E/LU with the goal of placing and retaining women in these occupations. DOL has found that placement and retention of women in A/NTO pose significant challenges. Those challenges are especially acute in fields requiring high technology skills, such as those related to computer- based information technology, for example, telecommunications, utilities, manufacturing, transportation, and general services.

Funds: Grantees will receive between \$50,000 and \$100,000.
Deadline: September 3, 2002.
Eligible: Community-Based Organizations.

YOUTH

The Ruddle Memorial Youth Foundation Evaluation Grants

Program: Evaluation grants are targeted to innovative programs or innovative components of programs serving underprivileged youth. As the purpose of these grants is to identify effective innovations in the field, RMYF will not fund the evaluation of programs that are not innovative. Applicants that use traditional approaches to serving youth are asked to seek funding from sources that fund such approaches. In addition to learning about the effectiveness of their innovative approach, grant recipients are expected to use evaluation results to improve their services. If an organization demonstrates through their RMYF-funded evaluation that their innovative methods are effective in helping underprivileged youth reach their full potential, RMYF will encourage them to apply for dissemination grants to help spread the use of their innovative approach elsewhere.

Funds: Grants range from 5,000 - \$15,000.
Deadline: August 15, 2002.
Eligible: Non-profits.
Info: Link: <http://www.rmyf.org/grantinfo/index.html#evaluationgrants>

The Ruddle Memorial Youth Foundation Dissemination Grants

Program: The purpose of these grants is to disseminate effective innovations in the field, RMYF will not fund the dissemination of programs/components that are not innovative or that have not demonstrated, through some sort of assessment, effectiveness. Funded programs can conduct dissemination by educating others of the innovative methods (e.g. writing articles, manuals, giving presentations at conferences, etc.), establishing partnerships with other organizations that will adopt their practices, reaching a broader geographical scope, or otherwise applying their effective innovative practices to additional populations.

Funds: Grants range from \$5,000 - \$25,000.
Deadline: August 15, 2002.
Eligible: Non-profits.
