

**Please run the following CNC Notice:**

**CNC Development Committee Meeting: January 29th, 2014, 7pm, Spaulding Hospital  
Community Meeting Room.  
Ropewalk Building Development Presentation**

The Charlestown Neighborhood Council will be hosting a meeting on Wednesday, January 29<sup>th</sup> at 7 pm at the Spaulding Hospital Community Meeting Room, for the purpose of hearing a revised development concept for the Ropewalk Building, as presented by Mr. Joseph Timilty and his development team.

The Ropewalk Building is considered the most historically significant building in the Navy Yard, as the only remaining building of its type in the United States, and one of only four in the world. The redevelopment of the Ropewalk Building will involve approval of numerous city, state and federal agencies, including the National Parks Service under the United States Department of the Interior, who are responsible for the historic preservation requirements for this type of building.

Mr. Timilty is proposing a development to include rental housing units and a small museum area. The project includes the adaptive reuse of the entire Ropewalk Building as well as the adjacent structures that are connected to the Ropewalk Building by overhead walkways. The proposed project does not include on-site parking.

The presentation will include information regarding the proposed development and may result in a vote of the Development Committee as a recommendation to the full Council for either support of the project or deferment of support until additional information and/or further revisions to the concept are provided.

Paid parking is available in the Spaulding garage for those attending the meeting.
