

CITY OF BOSTON • MASSACHUSETTS

OFFICE OF THE MAYOR
THOMAS M. MENINO

June 19, 2009

TO THE CITY COUNCIL

Dear Councilors:

I retransmit herewith an appropriation order for the Boston Public Schools for Fiscal Year 2010, in the amount of \$817.1 million, submitted pursuant to the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 190 of the Acts of 1982, as further amended by Chapter 701 of the Acts of 1986, Chapter 613 of the Acts of 1987, and Chapter 108 of the Acts of 1991.

This budget represents a decrease of \$16.2 million from the FY2009 appropriation of \$833.3 million. Even in this difficult economy, I remain firm in my commitment to improving education for Boston's children. Accordingly, the FY10 budget plan for the Boston Public Schools remains level with the resources allocated in the City's initial FY10 budget submission, despite a deeper cut in net State Aid to the City of Boston than was initially estimated. This budget reflects my priority to support our schools to fullest extent possible, even in the face of unprecedented declines in revenue.

Despite the fiscal challenges, the Boston Public Schools FY10 budget includes investments in important initiatives that accelerate academic achievement and help ensure all children reach their full potential. The FY10 plan strengthens literacy programs and expands K-8 programs and pilot schools. It supports graduation for all by providing safety nets such as credit recovery programs and improved offerings for English Language Learners.

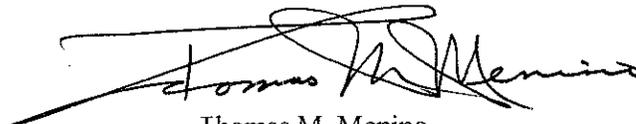

In addition to meeting the academic needs of today, the FY10 budget makes strategic investments that position the Boston Public Schools for the future. Investing in energy efficient technologies will reduce costs and free up resources for investing in schools. We will continue our multi-year effort to make improvements in student assignment and transportation that will reduce costs while preserving high quality choices for families. Investments in technology and training will increase school inclusion practices for students with disabilities, improving educational opportunities.

Further, the Boston Public Schools will make wise use of all available resources from the American Recovery and Reinvestment Act (ARRA). Where allowable under the law, these stimulus funds will support restoration of teachers in classrooms across the City as well as one-time strategic investments in technology and educational system-building whose benefits will be felt in future years. Of the \$30 million in ARRA funding that BPS will receive in FY10, more

than half will support BPS operating expenses. Together with the educational investments in the Operating Budget, these changes lay the groundwork for a stronger School Department and a brighter future for Boston Public School students.

I respectfully request your support of the FY10 appropriation for the Boston Public Schools.

Sincerely,
