Charles Titus, Associate Commissioner
Brian J. McLaughlin, Executive Secretary

*Prepared by the Parks & Recreation Department
Design & Construction Unit*

January 2008

Acknowledgements

The many residents who use the parks and open spaces of Boston, attended the numerous community meetings over the years, and submitted comments and suggestions to us through surveys and by correspondence, in large part wrote this plan. They made their recommendations known and shared their invaluable insights and local knowledge.

Project Team

Parks and Recreation Department, City of Boston

Antonia M. Pollak, Commissioner

Stanley J. Ivan, Chief Engineer

Kenneth Crasco, Chief Landscape Architect

Aldo Ghirin, Senior Planner/Project Manager, Open Space Plan

Robert Pessek, Planner (now retired)

Christine Grimando, Intern

Margaret Dyson, Director for Historic Parks

Jay Lee, Assistant Director of Design and Construction
Andria Post-Ergun, Senior Landscape Architect

Environmental Services Cabinet, City of Boston

Nancy Grilk, Chief of Staff

Metropolitan Area Planning Council

Joan Blaustein, Land Resources Planner

We also thank Valerie Burns and Vivien Li for their assistance and review in the drafting of the Community Gardens and Harbor Open Space chapters, respectively. There are many other community members, too numerous to mention, who reviewed and commented on sections of the plan draft. We thank them as well.

We also thank the Massachusetts Office of Geographic Information Services (MassGIS) for their provision of data that we used for our own GIS system.

Note: Data provided in the open space property and facility inventories contained in this plan were developed for general planning purposes only, and as such are the best available data. However, readers are cautioned that use of such data may not be appropriate or sufficient for legal, design, or other site-specific purposes. For such purposes, only research in the Registry of Deeds or other appropriate offices, property surveys, and field-checked research can be considered appropriately reliable.
