As the term of any commissioner expires, his successor shall be appointed in like manner as such commissioner for a term of five years. Any vacancy in the office of a commissioner shall be filled in like manner for the unexpired term. As the term of any alternate expires, his successor shall be appointed in like manner as such alternate. Any vacancy in the office of an alternate shall be filled in like manner. Every person appointed an alternate shall be so appointed that his term will expire at the same time as the term of the incumbent commissioner appointed in the same manner as such alternate. Every commissioner and every alternate shall continue in office after the expiration of his term until his successor is duly appointed and qualified. Any commissioner or alternate may be removed by the mayor as provided in section fourteen of chapter four hundred and eighty-six of the acts of nineteen hundred and nine. Whenever a commissioner is absent or unable for any cause to perform his duties, the alternate appointed in the same manner as such commissioner shall exercise the powers and perform the duties of such commissioner; but an alternate shall not otherwise be deemed to be, or act as, a member of the commission.

The commission may adopt, amend and repeal rules for the regulation of its affairs and the conduct of its business, and shall be deemed a department of the city for the purposes of section fifty-three A of chapter forty-four of the General Laws.

The commission shall annually on the first day of May, or as soon thereafter as conveniently may be, elect one of its members as chairman and another as vice chairman. The commission shall be provided with a secretary outside of its membership who shall be an employee of the board. Whenever the secretary shall not be in attendance at a meeting of the commission, the commission shall elect a secretary pro tem for such meeting. The members of the commission shall serve without compensation, but shall be reimbursed for expenses necessarily incurred in the performance of their duties. The records of the commission shall set forth every determination made by the commission and the vote of every member participating therein and the absence or failure to vote of every other member.

The commission shall not be subject to the supervision or control of the board; but unless otherwise ordered by the mayor, the commission shall not communicate with the mayor except through the board and shall not make any annual or other report except through the board.

SECTION 5. *Limitation on Issuance of Building Permit.* — No permit shall be issued by the building commissioner for the construction of any structure in the Back Bay Residential District or the reconstruction, alteration or demolition of any structure now or hereafter in said area, except in cases excluded by section nine, unless the application for such permit bears a certificate under section seven that no exterior archi-

tectural feature is involved or is accompanied by a certificate of design approval issued under section eight.

SECTION 6. *Limitation on Issuance of Sign Permit.* — No permit to erect a sign, marquee, awning, or other exterior architectural feature protruding from any structure in the Back Bay Residential District shall be issued by the public improvement commission of the city of Boston, or by any other agency now or hereafter authorized to issue such permits, unless the application for such permit shall be accompanied by a certificate of design approval issued under section eight.

SECTION 7. *Certificate of Nonapplicability of Statute.* — Except in cases excluded by section nine, every person about to apply to the building commissioner for a permit to construct any structure in the Back Bay Residential District or to reconstruct, alter or demolish any structure now or hereafter in said area shall deposit with the secretary of the commission his application for such permit together with such plans, specifications and other material as the commission may from time to time prescribe. Within eight days thereafter, Saturdays, Sundays and legal holidays excluded, the commission or such member or employee as the commission may from time to time designate so to do shall consider such application, plans, specifications and other material and determine whether any exterior architectural feature is involved. If it is so determined that no exterior architectural feature is involved, the secretary of the commission shall endorse on the application forthwith a certificate of such determination and return the application, plans, specifications and other material to the applicant.

SECTION 8. *Certificate of Design Approval.* — No person shall construct any exterior architectural feature in the Back Bay Residential District, or reconstruct, alter, change, except as hereafter provided, the exterior color of, or demolish, any such feature now or hereafter in said area, until such person shall have filed in duplicate with the secretary of the commission an application for a certificate of design approval in such form and with such plans, specifications and other material as the commission may from time to time prescribe and a certificate of design approval shall have been issued as hereinafter provided in this section. The commission shall retain one copy of the application and transmit the other to the board.

Within eight days after the filing of an application for a certificate of design approval, Saturdays, Sundays and legal holidays excluded, the commission or such member or employee as the commission may from time to time designate so to do shall determine the properties deemed by it to be materially affected by such application and, unless a public hearing on such application is waived in writing by all persons entitled to notice thereof, shall forthwith cause its secretary to give by mail, postage prepaid, to the applicant, to the owners of all such estates as they appear on the then most recent real estate tax list, and to any person filing written request for notice of hearings, such request to be renewed yearly in December, reasonable notice of a public hearing on such application to be held not sooner than twenty days after the date on which the copy of the application was transmitted to the board. The public hearing may be conducted by the commission itself or by such member or members or employee or employees as the board may from time to time designate; provided, however, that if such public hearing is not conducted by the commission itself, the person or persons

so conducting it shall transmit a written report and recommendation thereon forthwith to the commission. There shall be available at such public hearing a report and recommendation from the board, together with material, plans or drawings to aid the commission in reaching its decision. The commission shall not render any decision until such report and recommendation has been received and considered, provided that if no such report and recommendation has been received by the time of the public hearing, the commission may render its decision without such report and recommendation.

As soon as conveniently may be after such public hearing or the waiver thereof, but in all events within forty calendar days after the filing of the application for the certificate of design approval, or within such further time as the applicant may in writing allow, the commission shall determine whether the proposed construction, reconstruction, alteration, change in exterior color or demolition of the exterior architectural feature involved will be approved as based upon a design appropriate for the purposes of this act, or whether, notwithstanding that it may be inappropriate, owing to conditions especially affecting the structure involved, but not affecting the Back Bay Residential District generally, failure to issue a certificate of design approval will involve a substantial hardship to the applicant and such a certificate may be issued without substantial detriment to the public welfare and without substantial derogation from the intent and purposes of this act. In passing upon any design, the commission shall consider, (a) the architectural value and significance of the structure and its relationship to the surrounding area; (b) the relationship of the exterior architectural features of such structure to the rest of the structure and to the surrounding area; (c) the general compatibility of exterior design, arrangement, texture, and materials proposed to be used; (d) any landscaping features proposed by the applicant; and (e) any aesthetic or other factor, which it deems to be pertinent.

The commission shall pass only upon the exterior architectural features of a structure and shall not consider interior arrangements nor the use to be made of the structure. It is the intent of this act that the commission be strict in its judgment of plans involving substantial new construction or for structures deemed to be valuable according to studies performed on behalf of the city, the board or the commission for said area to determine which structures are of architectural value. It is also the intent of this act that the commission shall be lenient in its judgment of plans for structures of little architectural value except where such plans would seriously impair the architectural value of surrounding structures or the surrounding area.

If the commission determines that the proposed construction, reconstruction, alteration, change in exterior color or demolition of the exterior architectural feature involved meets with its approval or, although inappropriate, owing to conditions as aforesaid, failure to issue a certificate of design approval will involve substantial hardship to the applicant and issuance thereof may be made without substantial detriment or derogation as aforesaid, or if the commission fails to make a determination within the time hereinbefore prescribed, the secretary of the commission shall forthwith issue to the applicant a certificate of design approval. In approving an application the commission may impose conditions which, if the certificate of design approval or the permit for

demolition or removal is acted upon, shall be binding upon the applicant, the owner of the property and his successors in title. Any such conditions may subsequently be modified or removed by the commission. Prior to approving an application subject to conditions, the commission may notify the applicant of its proposed action and permit the applicant to express his opinion thereon. If the commission determines that a certificate of appropriateness should not issue, the commission shall forthwith spread upon its records the reasons for such determination and may include recommendations respecting the proposed construction, reconstruction, alteration, change in exterior color or demolition. Upon the making of any such determination the secretary of the commission shall forthwith by mail, postage prepaid, give notice of such determination to the applicant and to every person filing written request for such notice, transmitting therewith an attested copy of the reasons and recommendations, if any, spread upon the records of the commission.

The exterior color of any building or structure or portions thereof within the Back Bay Residential District may, without the filing of an application for, or the issuance of, a certificate of design approval, be changed to any color or any combination of colors which the commission shall determine from time to time may be so used without substantial derogation from the intent and purposes of this act.

SECTION 9. *Exclusions.* — Nothing in this act shall be construed to prevent any ordinary maintenance or repair of an exterior architectural feature now or hereafter in the Back Bay Residential District which involves no change in design, material, color or outward appearance thereof; nor shall anything in this act be construed to prevent the construction, reconstruction, alteration or demolition of any such feature which the building commissioner shall certify is required by the public safety because of an unsafe or dangerous condition; nor shall anything in this act be construed to prevent the construction, reconstruction, alteration or demolition of any such feature under a permit issued by the building commissioner prior to the effective date of this act.

SECTION 10. *Appeals.* — Any person aggrieved by a determination of the commission may, within thirty days after the making of such determination, appeal to the superior court sitting in equity for the county of Suffolk; provided that within eight days, exclusive of Saturdays, Sundays and legal holidays, after the secretary of the commission mails the notices provided for by the fifth paragraph of section eight, such person files with such secretary written notice of his intention to appeal. The court shall hear all pertinent evidence and shall annul the determination of the commission if it finds the reasons given by the board to be unwarranted by the evidence or to be insufficient in law to warrant the determination of the commission or make such other decree as justice and equity may require. The remedies provided by this section shall be exclusive; but the parties shall have all rights of appeal and exception as in other equity cases. Costs shall not be allowed against the commission unless it shall appear to the court that the commission acted in bad faith or with malice in the matter from which the appeal was taken. Costs shall not be allowed against the party appealing from such determination or approval of the commission unless it shall appear to the court that said party acted in bad faith or with malice in making the appeal to the court.

SECTION 11. *Enforcement.* — Whoever constructs, reconstructs, alters, changes the exterior color of or demolishes any exterior architectural feature now or hereafter in the Back Bay Residential District in violation of this act shall be punished by a fine of not less than fifty dollars nor more than one thousand dollars. In addition, whoever, after notice from the secretary of the commission, maintains any exterior architectural feature now or hereafter in the Back Bay Residential District in violation of this act shall be punished by a fine of not less than ten dollars nor more than one hundred dollars, and each day during any portion of which such violation is allowed to continue shall constitute a separate offense.

The superior court sitting as aforesaid may, upon application of the commission, restrain the construction, reconstruction, alteration, change in exterior color of or demolition of any exterior architectural feature now or hereafter in the Back Bay Residential District in violation of this act and order the removal of any such exterior architectural feature constructed or reconstructed in violation thereof and the substantial restoration of any such exterior architectural feature altered or demolished in violation thereof or the exterior color of which is changed in violation thereof.

SECTION 12. *Severability of Provisions.* — The provisions of this act shall be deemed to be severable; and if any of its provisions shall be held unconstitutional by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions.

SECTION 13. *Effective Date.* — This act shall take effect on December first, nineteen hundred and sixty-six. *Approved September 3, 1966.*

The amount of bonds and notes, or bonds or notes, guaranteed by the commonwealth under this section shall not exceed one hundred and fifty million dollars.
