Re: Verizon Cable Television License – Form 100

Dear Mr. Lynch:

Verizon New England Inc. (“Verizon”) is pleased to file its Application for a Cable Television License in response to the City of Boston’s Solicitation published in the Boston Herald on April 15, 2016. We are making the filing electronically today and sending two hard-copies by overnight delivery together with a check for \$100 to cover the statutory application fee prescribed in Mass G.L. c. 166A, § 9.

This is an exciting opportunity for Verizon, the City, and its residents. Verizon looks forward to receiving the City’s written report issued in accordance with 207 CMR § 3.03 setting forth the specifications the City deems appropriate for a cable license. Verizon notes the Additional Factors listed in the City’s Solicitation, and Verizon will be prepared to address those Additional Factors in response to the City’s written report as well as during the cable licensing negotiations.

If you have any questions concerning the Application, please do not hesitate to contact me.

Sincerely,

  
Donna C. Cupelo  
Region Vice President
