RE: Proposed Wynn Development and Freedom of Information Request for Public Records

Dear Attorney Mejia,

As you aware, on August 9, 2013, the City of Boston sent the City of Everett a public records request for information on the proposed Wynn development because the City of Boston has been unable to obtain information from the developer. Your reply letter provides the City of Boston a cost estimate of \$851.92 for the documents that the City has requested. I have attached a check payable to the City of Everett for the request amount.

Very truly yours,

Elizabeth Dello Russo
Executive Director, Advisory Committee
